## DETAILED ACTION

### *Election/Restrictions*

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-17, drawn to a method of forming granules.

Group II, claim(s) 18, drawn to water dispersible granules comprising an agricultural active material.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the special technical feature of claim 18, a water dispersible granules comprising an agricultural active material, is taught by GB 1 399 005 (1:53-2:7).

A telephone call was made to applicant's attorney, Mr. Paul N. Kokulis, on 03-MAR-2004 to request an oral election to the above restriction requirement, but did not result in an election being made because the attorney has changed companies and no forwarding telephone number is of record.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
